Modèle 2 (Photos et Info Jean-Paul Delacruz)

Lampe électrique de mine - Emmanuel Lemaire

Two photographs of a portable lamp by Jacques Aymar. The left image shows the lamp from a side profile, highlighting its cylindrical metal body, a brass-colored upper section, and a glass chimney with a metal frame. A small label with the number '213' is visible on the body. The right image shows the lamp from a slightly different angle, showing the top handle and the internal components of the lamp. A scale bar indicating 5 cm is present in both images.

Merci Bernard!
